MatBoss announces Match of the Week feature

MINNEAPOLIS -- MatBoss, wrestling's premier VideoStats app, announced a new weekly feature: Match of the Week.

Now MatBoss users have the ability to nominate any wrestling match recorded using the app for Match of the Week with the touch of a button.

Every week during the college and high school wrestling season, MatBoss will select five matches from the Match of the Week nominations. Wrestling fans will have the opportunity each week to view the five selected match nominations and vote for Match of the Week on MatBossApp.com or InterMatWrestle.com. Match of the Week winners will be announced every Tuesday.

"There are so many competitive, action-filled wrestling matches taking place across the country, both in high school wrestling and college wrestling," said MatBoss editor Andrew Hipps. We believe it's very important to make these matches readily available to wrestling fans, give wrestling fans a voice, and also recognize the best wrestling matches."

About MatBoss:

Created by coaches for coaches, MatBoss for iPad® integrates wrestling stats directly into the video you record for each match, completely replacing the need for labor-intensive pencil and paper scoring systems. Several of the nation's top wrestling programs across all divisions of college wrestling and high school wrestling use MatBoss. For more information on MatBoss, visit www.MatBossApp.com.
